The Little Horse Has Shown Phenomenal Time in Private Geraldine Holds Mark of 0:46 Straightaway Racing Boston. Bills May Be Introduced This Week. Chicago

Allan Pinkerton believes he owns the Philadelphia. fastest half miler in the world in his five-year-old horse Booger Red, by Rancocas-Heeley. In order to establish the fact Heeley. In order to establish the fact Mr. Pinkerton is trying to arrange a trial against time over the Belmont Park straightaway course either to-morrow or Wednes-day if weather and track conditions are day if weather and track conditions are favorable. He says he will invite several clockers of recognized ability to hold watches on Booger Red, who will be sent against the world's half mile record of 0.46, straightaway, made by Geraldine at Morris Park August 30, 1889. Geraldine carried 122 pounds and was 4 years old when she hung up this mark over the famous Eclipse course, which was a triffe down hill. Booger Red probably will pick up 106 or 108 pounds, however, and

pick up 105 or 108 pounds, however, and Jockey Carroll Shilling, who is riding for S. C. Hildreth at Pimlico, may be invited to pilot the Rancocas sprinter. At Cedarhurst a week ago Booger Red,

packing 168 pounds, showed phenomenal speed in a flat race for galloways, and several days later Mr. Pinkerton decided to time him in a private trial. Trainer C. F. Clark had the little horse in superb condi tion when he was sent to the mark, and with a heavy exercise boy in the saddle.
Booger Red surprised his owner and trainer by stepping the first three furlongs in 0:342-5, and breezing out the half mile in the won-derful time of 0:45 2-5. Although the world's ecord was broken the performance was not initial of course, but it impelled Mr. Pinkeron to arrange a formal speed trial, which he believes will produce a new record.

Booger Red raced on the Western tracks

Booger Red raced on the sast two and three-year-old and attracted much attention. Mr. Pinkerton purchased him a year ago for the purpose of starting him in galloway races at the various hunt meetings, and the investment proved a good one, for the Rancocas horse has beaten everything and is now at the merey of the handicapper. He was asked to carry 170 handicapper. He

According to excellent authority, bills aimed to restore racing in the State of New York have been drawn after much deliberation and are expected to be introduced at According to excellent authority, bills aimed to restore racing in the State of New York have been drawn after much deliberation and are expected to be introduced at Albany this week. The measures are said to amend the so-called directors' liability law, to define the meaning of the word "bookmaker" and to restore the tax on gross receipts to be devoted to the State and county fairs. The measures have the undivided support of the fair associations.

Matt Wells, the English lightweight champion, will sail for this country on May 13 He has received offers from the Twentieth Century A. C. and the National Sporting Club of this city to meet the leading boxers in America. The Twentieth Century man-

may file an objection, but there is every reason to believe that Goodman and Mc-Farland will accept.

Wells is under the management of George McDonald, a London sporting man who intends to make the best terms possible for his representative. Wells in spite of his victory over Welsh has found very little money in England and when McFarland declined an offer to box him on the other side he decided to come here. McFarland shrewdly figures that if he can outpoint Wells at one of the local clubs he will be in a position to dictate weight conditions to Welsh and also will be able to drive a suitable bargain with Ad Wolgast later on.

If Wells can stand off McFarland and Welsh he will challenge the winner of the Moran-Wolgast fight on July 4, but owing to his weight demands there is little chance for him to contest for the world's championship in this class.

K. O. Brown and Tommy Murphy, who clash at the Whirlwind A. C. in Brooklyn next Thursday night, practically have the field to themselves this week, for though many of the other clubs here have interesting bouts on there is none so important as this. The battle, which will be for ten rounds at the light weight light, tag nounds. esting bouts on there is none so important as this. The battle, which will be for ten rounds at the lightweight limit, 133 pounds, esting at 6 o'clock, marks the return of Brown to the ring after a long rest since twice receiving the popular decision over Champion Wolgast. Brown means to get the title away from Wolgast in a long fight out West in the near future and his bout with Murphy will prepare him for his scrap with the lightweight titleholder. But Murphy must be reckoned with Although beaten by Packy McFarland a short time ago, fommy showed that he was one of the best and most dangerous lightweights in the game to-day. He went up against a man much heavier than himself and came out of the scrap without being disgraced. It was said after the bout with McFarland that Murphy could beat most of the 133 pounders in the country and he will try to make Brown his victim. Brown is the favorite with a large majority of boxing fans. In fact some of the sharps believe he will stop Murphy before the limit is reached.

EASTERN LEAGUE. STANDING OF THE CLUBS.

Newark defeated Toronto in the final game of a series in Newark yesterday before crowd of about 11,000 fans. The contest was a good one and was anybody's until the last man was out. Henny Meyers, who got four hits in four times up, made one of them good for the winning run. The score:

Matt Wells, the English light weight champion, will sail for this country on May it the has received offers from the Twentieth Century A. C. and the National Sporting Club of this city to meet the leading boxers in America. The Twentieth Century managers assert that Wells will meet Jack Goodman, K. O. Brown and probably Packy McFarland at the St. Nicholas Skating Rink, while Tom O'Rourke of the N. S. C. believes the can arrange a match between Wells and Freddie Welsh, from whom the former won his present title.

It is generally understood that Wells will insist on weighing 135 pounds at 2, the recognized English light weight limit, in which event it hardly is probable that Brown will take a chance with him Welsh, too, may file an objection, but there is every reason to believe that Goodman and Meralish under the management of George.

BRUSHES ON THE SPEEDWAY. Big Day, With Denver a Prominent Winner-A Near Runaway.

Yesterday was a big day on the Speedway. Everybody who owned a horse and som.e

who do not were on the drive. Nathan Straue's gray gelding Denver, 2:14%, was a good winner and he invaded the ranks of the sidewheelers to find a competitor with speed enough to make the race interesting. James Murphy was on hand behind Coast Marie, 2:11%, and he appeared quite willing to match ber against Mr. Straus's champion For the first time in her career the little mare did not stay on her feet and when the horses had raced neck and neck for a few yards she went in the air. Mr. Murphy caught her and reduced her to order, but she would not stay reduced and twice she broke her stride before the post was reached. Again Mr. Murphy essayed to take the measure of the gray gelding, but with no better success. Hugh Riley has a trotting mare called Octavia and he thought that the had speed enough to measure strides with Denver. Mr Riley found, however, that if Octavia is going to beat Denver she will have to go about twice as fast as she did yesterday.

FENCERS HAVE FIELD DAY Amateur League Visits Travers Island for Wax Bullet Pistol Duels.

The Amateur Fencers League of America had its annual field day at Travers Island yesterday, nearly one hundred disciples of D'Artagnon taking part in the festivities. The day was given up to wax built duelling and contests at fencing. In the final of the pistol duelling Dr. Graeme M. Hammond "killed" Dr. M. J. Escherria, the bullet striking the latter over the heart. Among the visitors were members of the New York A. C., Fencer's Club, Columbia University,

> > The Test of Time

The motor-truck industry is new-especially in America. No American truck has had the convincing " test of time ". The Saurer has been in service for over ten years, and in all that time not one has ever worn out or had its engine replaced, except as result of collision.

In 1907-8-9 the Saurer won first prize in ten contests conducted by the War Departments and Automobile Clubs of Germany, France, England, Austria, Switzerland, Belgium, Italy, Sweden. These contests were conducted under rigid rules governing economy, efficiency, and quality of manufacture. The Saurer has never been defeated.

Our engineering department is at your disposal, to mable you to determine whether you can advantageously use Saurer Trucks, and to
